

Eastside High School

Dual Enrollment Process

Thank you for your interest in the Dual Enrollment Program! The State of Georgia initiative allows high school students to take college courses through an approved college or university for high school credit. The Dual Enrollment funding will pay up to 30-credit hours of college courses (this is normally around 10 classes). **Any credit hours over the initial 30 will result in an invoice sent to the parent/guardian for payment.**

Eastside High School recommends that students begin dual enrollment at the start of their 11th grade year to ensure students stay at the 30-credit hour funding.

To apply for Dual Enrollment, you must follow the high school's registration process as well as the college's application process and you must request funding through GAFutures.org.

While students can apply to any school in the state that has a Dual Enrollment program, the colleges that are typically used by Eastside High School are:

- Georgia State University- Perimeter Campus
- Georgia Piedmont Technical College

It is important to note that students needing Algebra II credit **will** have to complete the course at Eastside High School. Post-secondary institutions do not offer a course that will meet this graduation requirement.

Students that dually enroll in American Literature and US History **will still be expected to take the EOCTs for these classes at EHS to receive high school credit.**

Transportation is not provided by Eastside High School. The student and their families are responsible for transportation to and from campus where courses are taken.

Alternatively, most schools offer a vast number of online classes as well. These online classes count as Dual Enrollment credits also.

College Entrance Requirements

Georgia State University- Perimeter Campus:

To be eligible for the Dual Enrollment Program, you must:

- Be a rising junior or senior at an eligible, participating public or private high school or home school program.
- Be on track to graduate from high school or home school.
